1. The subject provision of the recently published regulation, [REDACTED] has been discussed several times recently at staff meetings and CSB meetings. You will recall that I had suggested that we begin to make preliminary determinations concerning the particular positions that we may want to handle under this new provision. Some of you have responded to my earlier request.

2. At this point, as we anticipated, specific action is now being requested by the Director of Personnel which goes a bit beyond my previous request. A copy of his memorandum is attached, and it is requested that you have your responses in to me for review by the DD/R no later than COB 29 May 1963.
